https://crontab.guru/

What is wrong with running jenkins this way.

docker run -p 8080:8080 -p 50000:50000 -v ~/jenkins_home:/var/jenkins_home jenkins/jenkins:lts

https://github.com/jenkinsci/docker/blob/587b2856cd225bb152c4abeeaaa24934c75aa460/Dockerfile

Jenkins Container Solution packaged by Bitnami – marketplace

Directly via Docker

```
docker run \
 -e AWS_ACCESS_KEY_ID=SOME8AWS3ACCESS9KEY \
 -e AWS_SECRET_ACCESS_KEY=sUp3rS3cr3tK3y0fgr34ts3cr3cy \
 -e S3_BUCKET_URL=s3://name-of-your-bucket/ \
 -e AWS_DEFAULT_REGION=your-aws-region \
 -e CRON_SCHEDULE="0 * * * *" \
 -e BACKUP_NAME=make-something-up \
 -e S3_STORAGE_CLASS=GLACIER \
 -v /your/awesome/data:/data:ro \
 peterrus/s3-cron-backup
```
